V-Tune Pro 4K AV Tuner
Delivers Exceptional HD Tuning Solutions

Corporate • Hotels • Conference Centers • Higher Education

Tune Into HDTV 4K Distribution

AV Tuner Provides HDMI 2.0, 1G BaseT Port & 3-Year Warranty

The V-Tune Pro 4K offers a 4K2K high definition solution for integrated systems that conform to NTSC (North America) or PAL (Europe) standards, or QAM schemes, and feature:

> ATSC Receivers

> DVB Devices

> IPTV Systems

The tuner is capable of decoding video in these formats with resolutions up to 4K@60Hz via RF & LAN:

> H.264

> H.265

> MPEG2

> MPEG4

> VC-1

The V-Tune Pro-4K AV Tuner may be integrated with these types of controls:

> IP-Based

> IR

> RS-232

Video outputs are HDMI 2.0 to reflect the latest in connectivity technology, and composite YPbPr video to accommodate legacy systems.

Audio is provided through unbalanced stereo RCA connectors, as well as through S/PDIF and optical fiber connectors.

The V-Tune Pro 4K's versatility enables it to fit with almost any integrated system's topology. It's the only tuner on the market which can support a wide range of standards, formats, controls and connectivity technologies cost-effectively.

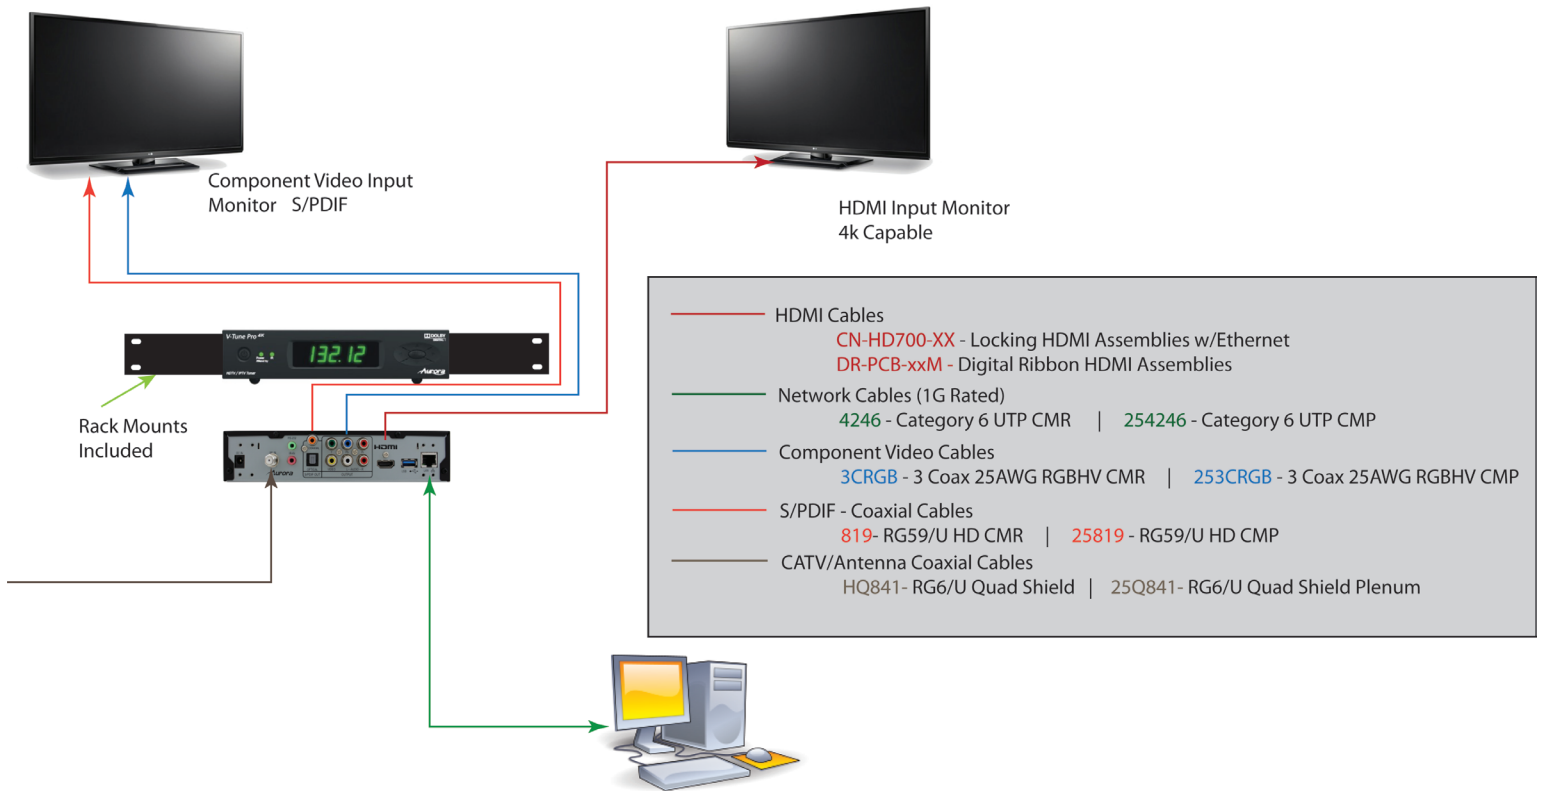

More Features to Maximize Functionality

The V-Tune Pro-4K AV Tuner has many characteristics that make it ideal for any environment requiring superior HD tuning solutions.
